

## Fire Prevention Bureau

### Personnel Hourly Rates

---

<b><i>Position</i></b>	<b>Hourly Rate</b>
Battalion Chief	107.69
Forester/EMS BC	107.69
B/C-Trng / Fire Marshal	107.69
Captain Specialist	97.05
ASO-Administrative Officer	73.08
Accounting Technician	54.49
Clerk	48.40
Captain Senior	75.69
Captain	69.47

### Master Fee Schedule

#### Plan Check and Inspections

Residential Sprinkler Inspections (NFPA 13R)	2-hr minimum
Commercial Overhead	3-hr minimum
Commercial Underground System	2-hr minimum
Commercial TI (3 head or less)	No Charge
Commercial TI (4 – 10 heads)	1-hr minimum
Commercial TI (11 - 30 heads)	2-hr minimum
Other pre-engineered systems	1-1/2-hr minimum
Fire Code Permits	1-hr minimum*
Vegetation Management Plan (SFD)	1-hr minimum
Vegetation Management Plan (sub-division)	3-hr minimum

\*If more than one Fire Code permit is required, the minimum hourly rate applies and then the services will be charged at the hourly rate to the nearest 1/4-hour based on actual time spent at the job site.

All categories above include plan check and required Inspections. All categories include the minimum charge plus actual costs to the nearest 1/4-hr. The fully burdened rates charged are per the above Personnel Rate Table at the rate of the rank of the individual performing the service. If plans are sent out for review, the cost will be the actual cost plus the Department personnel time charged to the project.

The Base Rate Fee Schedule reflects the actual costs of providing the services. Although surveys were done, the final figures were set based upon the cost of providing the service. Similarly, the Master Fee Schedule reflects the actual time that county staff will expend on plan check and inspections. Where a minimum is

set, that minimum reflects the fact that the plan check and/or inspection will take at least the amount of time that is indicated.
