STANDARD NO.: 902.2.2.3

REVISED: 11/01/02

SUBJECT : Access road turning radius

AUTHORIZED: R. Pearce

1. The minimum inside turning radius for a driveway serving one or two dwelling units shall be 15 feet.
 - a) In corners and curves with an inside radius less than 60 feet the minimum improved width shall be 14 feet with 16 feet of clearance total.
2. The minimum inside turning radius for an access road serving more than two dwelling units, and all other occupancies, shall be 30 feet.
