

## Public Access Defibrillator Program

The Tiburon Fire District is passionate about saving lives and enhancing the quality of the lives we save. We feel so strongly about the value this program can bring to you we are willing to give this gift of life to you and your patrons. To shave a few minutes off the time between when someone goes down and emergency medical service care begins we will happily:

- Coordinate the PAD program with the County of Marin
- Provide you with an Automatic External Defibrillator (AED)
- Install the AED in you establishment at no charge
- Offer initial training to your Response Team in AED/CPR by a Certified EMT of the Fire District at no charge

For more information about starting the Public Access Defibrillator Program at your business contact Collin Jackson – Fire Captain, Paramedic at 415-435-7200 or [cjackson@tiburonfire.org](mailto:cjackson@tiburonfire.org)

The current location for the 10 AED's in Belvedere and Tiburon are:
